

# City Project 2011-1

## 2011 Infrastructure Improvements

### Construction Update #2

June 1, 2011

Construction Hotline (651) 480-2334

### Cones, Crews, & Construction Contraptions Are On Their Way...

The City's contractor will soon descend on Hastings for the 2011 Construction Season! Major construction work is scheduled to begin **during the week of June 6<sup>th</sup>** in portions of the West 14<sup>th</sup> Street Neighborhood. **All work schedules are weather dependent.**

### Initial Locations & Activities...

➤ **Between Park Lane and Pine Street:**

- Milling of the existing street surface (*2-3 days to complete*) - A large machine "peels up" the existing blacktop and tosses it into dump trucks. This material is hauled back to the blacktop plant where it is recycled into new pavement.
- Temporary water system activation (*Activated around June 7<sup>th</sup>*) - The contractor's workers have already been in contact with the affected homeowners to make preparations for connecting their homes to the temporary system.
- Utility replacements (*Several weeks to complete*) - Both the sanitary sewers and the watermain lines beneath the street will be replaced. Individual service lines for these systems will also be replaced in this area.

➤ **Between Westview Drive & Park Lane (14<sup>th</sup> Street, Hillside Street, Hillside Court, & View Court):**

- Some storm sewer replacement work at the intersection of Hillside Street/Hillside Court and on part of Hillside Court. The contractor may start this work during the first week of activity. Once it begins, this work will take 2-3 days to complete.

➤ **West of Westview Drive** - No work is scheduled to begin for few more weeks

### Mail Delivery During the Project

**On Saturday, June 4<sup>th</sup>**, the Hastings Post Office will begin to deliver mail to groups of temporary mailboxes for some areas of the project. **Please see the map on the back of this page for the location of where your mail will be delivered during the project.**

### Parking During Construction

You will be able to access your driveway, and park in the street **before and after the contractor's working hours (7am to dusk)**. It is also likely that you'll have access during the day **when the contractor is not working directly in front of your home.**

### Future Construction Updates will be provided by....

- Hard copy – at specially marked mailboxes that will be adjacent to the temporary mailboxes
- E-mail - Visit <http://www.ci.hastings.mn.us/Main/ListServs.htm> Click on "Sign Up" next to the "Construction Updates – 2011 Infrastructure Improvement Program" link.
